Samouslužne servis stanice za bicikla

Na dvije lokacije u gradu turisti i stanovnici Tivta će biti u mogućnosti da provjere ispravnost bicikla, otklone eventualne kvarove i napumpaju gume i to na ulazu u zgradu Opštine Tivat i ispred Turističko informativnog biroa u Donjoj Lastvi.

Self-service bike stations

Two self-service bike stations, one at the entrance to the Town Hall, and the other in front of tourist office in Donja Lastva, will be available in Tivat where both the locals and visitors will be able to check their bikes, remove possible faults and pump the tyres.

On the Paths of Sustainability

Stanica za punjenje električnih vozila

Prvu stanicu za punjenje nove generacije električnih automobila Tivat je dobio 2019. godine koja je u vlasništvu "DOO Parking servis Tivat". Nalazi na javnom parkingu u Arsenalskoj ulici. Punionica, koja je prilagodjena svim vrstama električnih vozila, bez obzira na model, sadrži dva priključka za punjenje te se istovremeno mogu puniti dva vozila. Aktivira se preko elektronske kartice koju korisnici mogu preuzeti na naplatnoj rampi parkinga. U Tivtu postoje još tri lokacije gdje se nalaze punionice: Eko pumpa, Marina Porto Montenegro (molo 1) i četiri punionice u naselju Luštica Bay (parking hotela The Chedi).

E-car charging stations

Tivat got its first e-car charging station of the new generation in 2019, owned by the company managing public parking places. Located at the public parking in Arsenalska Street, the charging station adapted to all types of electric cars, regardless of their make, disposes of two charging sockets enabling simultaneous charging of two cars. It is activated by means of an electronic card obtainable from the parking booth. Tivat now disposes of three more charging stations located at Eko gas station, Marina Porto Montenegro (Pier1) and four charging stations at Luštica Bay (parking lot of The Chedi hotel).

► Luštica bay 15 km
